

**NORTH COUNTY
MATHEMATICS SUPERBOWL**

Date: Wednesday, March 29, 2023
Time: 8:00 AM to 12:45 PM
Place: Santa Maria Fairpark - Convention Center
Participants: 4th, 5th, and 6th Grade Students

This is an invitation to all teachers and students in grades 4, 5, and 6 in schools throughout northern Santa Barbara County to participate in a mathematics competition event that is exciting and challenging.

Each school may use a screening process of its own design in order to select four students from each grade level who will best represent the school at the Math Superbowl. Due to space constraints, we have to limit participation to 25 schools. Schools will be registered on a first come first serve basis.

School and individual awards will be given. There will be an entry fee of \$140 per school to cover costs associated with the event.

Pencils, scratch paper, and the test materials will be provided. Hand-held calculators may be used in the individual problems solving and team competition only and must be provided by the school or individual students. Phones or other devices that can connect to the internet will not be permitted.

Due to space restriction, participating schools are asked to bring only the primary competitors to the event.

To help us plan and organize for the event, there are 2 steps to the registration process.

Step 1: Submit a completed School Registration form. It must be returned to the Orcutt Union School District, along with the \$140 registration fee in the form of a check by mail. Please make a check payable to **Orcutt Union School District**. Payment and School Registration Form is due no later than 2/10/2023.

Step 2: Submit student names through a shared google file. ***Names must be received by February 24, 2023 .***
