## DataQuest

## California School Dashboard

Internet Access

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at https://www.cde.ca.gov/ta/ac/sa/.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at https://www.cde.ca.gov/fg/aa/lc/.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest is an online data tool located on the CDE DataQuest web page at https://dq.cde.ca.gov/dataquest// that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

The California School Dashboard (Dashboard) https://www.caschooldashboard.org/ reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

## 2023-24 School Description and Mission Statement

The Orcutt School for Independent Study (OSIS) is in its second year as an Orcutt Union School District school offering independent study options to students in grades K-8. Prior to 2021-2022, the school was affiliated with the Orcutt Academy Charter School as an independent study program. In the wake of the alterations to independent study brought on by AB 130, the district made the decision to once again affiliate the independent study program with the district (not the charter) and to work toward establishing the program as a separate district school.

The school's format is independent study and it adheres to AB 130 and all state laws, Board Policies, and Administrative Regulations that pertain to that educational option. Grade levels served are kindergarten through eighth grade. The campus location is at 1220 Oak Knoll Road, Orcutt, CA 93455.

## Vision:

To be a benchmark independent study program, recognized for effective student-centered learning environments, a welcoming community that promotes mutual respect and the appreciation of the diversity of experiences that make up its population, with an unwavering emphasis on preparing students to be leaders equipped as thriving citizens in the 21 st-century global society.

## Mission:

Orcutt School for Independent Study provides innovative avenues of study and educational options that place a premium on academic learning, with caring relationships at its core. As partners, students, parents, staff, and the community work together to ensure a nurturing, caring environment where students achieve their potential.

## A. Conditions of Learning State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

The CDE published the first year of available teacher data for the 2020-21 SARC in June 2022, and the CDE published the second year of data for the 2021-22 SARC in June 2023. The EC Section 33126(b)(5) requires the most recent three years of teacher data to be requested in the SARC, as data is available. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Note: The data in this table is based on Full-Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

## 2023-24 Quality, Currency, Availability of Textbooks and Other Instructional Materials

All textbooks used in the core curriculum at Orcutt School for Independent Study are aligned to the California Content Standards and Frameworks. The district follows the State Board of Education's six-year adoption cycle for core content materials and the eight-year cycle for textbook adoptions in foreign language, visual and performing arts, and health.

On Wednesday, September 14, 2022, the Orcutt Union Elementary's Board held a public hearing to certify the extent to which textbooks and instructional materials have been provided to students. The Board of Education adopted Resolution No. 4 which certifies as required by Education Code $\S 60119$ (1) that textbooks and instructional materials were provided to all students, including English learners, in the district to the extent that each pupil has a textbook or instructional materials, or both, to use in class and to take home, and (2) sufficient textbooks and instructional materials were provided to each student, including English learners, that are aligned to the academic content standards and consistent with the cycles and content of the curriculum frameworks in math, science, history-social science, and English/language arts.

In addition to core subject areas, districts are required to disclose in their SARCs the sufficiency of instructional materials used for their visual/performing arts curricula. Orcutt Union Elementary did not offer visual/performing arts classes and therefore did not require the distribution of respective textbooks and instructional materials.

## School Facility Conditions and Planned Improvements

The district takes great efforts to ensure that all schools are clean, safe, and functional through proper facilities maintenance and campus supervision. Orcutt School for Independent Study is housed on the Ralph Dunlap Elementary School campus. Ralph Dunlap's original facilities were built in 1962. Ongoing maintenance and campus improvements ensure facilities remain up to date and provide adequate space for students and staff. District maintenance and site custodial staff ensure that the repairs necessary to keep the school in good condition are completed in a timely manner. The principal communicates with the custodial staff daily concerning maintenance and school safety issues and responds to staff concerns as they arise. A work order process is used by school and district staff to communicate non-routine maintenance requests. Every morning before school begins, the custodian inspects the facilities for safety hazards or other conditions that need attention prior to students and staff entering school grounds. One day custodian and one evening custodian are assigned to Ralph Dunlap Elementary School.

The day custodian is responsible for:

- Classroom cleaning
- Grounds-keeping
- Lunch area setup/cleanup
- Restroom cleaning

Restrooms and high touch areas are checked throughout the day for cleanliness and subsequently cleaned and disinfected as needed. The evening custodian is responsible for:

- Classroom cleaning
- Office area cleaning
- Restroom cleaning
- Regular disinfecting

## B. Pupil Outcomes

## State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

## Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. Smarter Balanced Summative Assessments and CAAs for ELA in grades three through eight and grade eleven.
2. Smarter Balanced Summative Assessments and CAAs for mathematics in grades three through eight and grade eleven.
3. California Science Test (CAST) and CAAs for Science in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

## College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

## Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

## 2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## B. Pupil Outcomes

## State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

## 2022-23 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT during 2021-22 and 2022-23 school years, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

## C. Engagement

## State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

## 2023-24 Opportunities for Parental Involvement

Our school recognizes parents as valuable partners in the success of our students. Our K-8 Independent Study campus has a required parent orientation prior to signing the master agreement at which time teachers or designees meet with parents to establish and review goals for the year regarding the expectations of the program. This onboarding meeting reviews the curriculum (including digital components), schedules, technology support, hybrid versus virtual learning, and provides opportunities for parents to ask questions and share relevant information for the reasoning behind choosing OSIS. Additionally, the school schedules curriculum-based "open house" events each spring. These are opportunities for parents, family members, and friends to see what students have accomplished.

Parents are encouraged to get involved in their child's learning environment by volunteering in the classroom, helping with extracurricular activities, participating in a decision-making group, or simply attending school events.

Parents stay informed on upcoming events and school activities through email, phone calls, the school website, school newsletters, school bulletin boards, and classroom websites (Google Classroom). Contact the school's main office (805) 9605572) for more information on how to become involved in your child's learning environment.

## 2023-24 School Safety Plan

A Safe Schools Plan for Orcutt School for Independent Study has been updated and discussed with staff and the School Site Council on January 17, 2023. Emergency Flipcharts and backpacks have been updated or replenished and distributed to every classroom. An emergency exit map is posted in every room. The staff has responsibilities, such as on-site emergency teams. OSIS has regular drills to allow students and staff to practice responses to a range of possible situations, including fire, earthquake, intruder, and more.

OSIS places a high priority on maintaining a safe and supportive classroom environment. Orcutt School for Independent Study Handbook clearly outlines behavioral expectations and the consequences for violations. The book is reviewed and updated annually by the principal and staff.

During the summer of 2022, the site was moved to a new campus shared with Ralph Dunlap Elementary. This move helped to improve campus safety by utilizing Dunlap's security fencing and cameras, as well as being in closer proximity to local emergency services. This move also helped to improve communication access from ground-based phone systems to wireless to consistent wifi for internet access.

## Professional Development

Investing in the continued growth and quality of our staff is one of the most important things we can do to improve the achievement of our students. This year, an emphasis for the school and district has been continued teacher training in best practices for initial classroom instruction and follow-up academic intervention in English/language arts and mathematics as well as school-wide safety protocols. The Orcutt Union School District has scheduled time for teachers to meet in Professional Learning Communities to take up these topics, and Orcutt School for Independent Study teachers are full participants in this. In addition, staff from Orcutt School for Independent Study have participated in site and district-led professional development on Professional Learning Communities, Multi-tiered Systems of Support, Social Emotional Well-Being, Trauma-Informed Practice in Schools, Virtual Learning Best Practices, Safety, and Positive Behavioral Interventions \& Supports.
Staff members had the opportunity to participate in targeted professional growth opportunities to support academic achievement and social/emotional learning for all students and specific sub-groups. These opportunities were offered during and after school by the TOSA team and educational consultants. All district staff attended presentations on how to support students through the transition from traditional classroom settings to independent or hybrid learning settings as well as traumainformed and inclusive practices. The district also provided on-going staff development focused on building mathematical conceptual understanding and procedural fluency.

This table displays the number of school days dedicated to staff development and continuous improvement.
